THE BIG LIE TECHNIQUE

- Derived from Hitler's "Mein Kampf"
- The rule:

> "Accuse your opponents, loudly and angrily, of doing precisely what you're doing. Lie often enough and boldly enough, and people will find it difficult not to believe you. History never asks the victor whether he's told the truth. "

Regarding Amendment 2, this includes:

1. Accusing Amendment 2 supporters of intolerance and hatred, even while Act-Up, Queer Nation and their colleagues engage in wholesale vandalism, angry protests, death threats and economic blackmail

2. Accusing Amendment 2 supporters of engaging in a "holy crusade" of religious fundamentalism, while at the same time publicizing the support of as many clergy and denominational groups as possible.

3. Accusing Amendment 2 supporters of trying to "legislate morality", when actually it's the militant homosexual movement that seeks to impose its brand of "alternative" sexuality on every citizen of Colorado.

4. Accusing grass-roots, home-grown Amendment 2 supporters of following a national agenda, even while the militant homosexual manifestoes and calls to action advocate a systematic campaign. Falsely accuse CFV of being funded by "outside fundamentalist money", even while Hollywood big bucks pour into anti-Amendment 2 coffers.
